WHY IS THE NEW GRAHAM SYNCHRO-SILENT FOUR-SPEED TRANSMISSION

SO IMPORTANT TO YOU?

SECAUSE a plantageth past smoothness and agen such as you have never enjoyed before, is the first fine satisfaction you derive from the new Grohom Synchro-Silent Four-Speed Transmission, with silent shift.

BECAUSE—as days an on, you notice also a marked economy in the use of agsoline and all, since the average engine speed at any given road speed is so greatly reduced. And wear on engine parts is materially lessened.

Perhaps your greatest surprise—even if you are familiar with previous Grobom value...will be to learn that the new Grobom Special Sixes and new Eights, with many added improvements, are priced from \$150 to \$500 lower in Canada than before.

Willow 1917

"The Parker Pen is superlatively good," wrete Mastere Giscowe Paccini to a frened in 1917. Yet today's Parker Dunfeld, embodying, as it dees, all the emprocurrents made since that time, is superlatively better than even Paccini's Parker. If you want to capture your precious ideas on the fly and put them into action on the spot, have the pressureless-writing Parker Duofold Pen ever bandy on your person and deak. It avoids all interference with thought —and, to clear thinking, this is vital.

For example: Music, sublime but fleeting, was made immortal by the Parker Pen in the hands of the great Maestro Giacomo Puccini. To a friend he wrote, "The Parker Pen is

superlarively good."

Sir Arthur Conan Doyle, author of "Sherlock Holmes," used a Parker Pen until his death. To his friend, Lord Molesworth, he wrote of the Parker, "At last I have found my

affinity in pens."

Parker eliminates mental static because you write by merely directing the Pen— pressure-less-writing—as subconscious as breathing.

The famous Pressureless Point comes in

a jewel-like, streamlined barrel, as light and balanced and quick as a dart. Go to the nearest pen counter—get a taste of its golden glide. See how low and unexposed it rests in pocket or hand bag,
